Sample Bearing T-114RG SS

We have created a special sample bearing for you to show your customers.

This bearing is an example of our capabilities to produce special custom bearings.

- It's small, clean and easy to carry around
- It's made of stainless steel and will not rust on your desk
- It's unique in that it has a center pin
- We call it our T-114RG style bearing

We make and stock various sizes of this bearing and others in hardened steel.

We also make many special custom bearings in various materials, sizes and configurations.

If you would like to receive a free sample bearing, please contact us at:
